

Qualifications approved for direct entry to MRICS – as of August 2022

The qualifications listed below are approved for direct entry to MRICS, subject to the conditions outlined in the table.

All applicants must:

- have one proposer who is MRICS or FRICS
- successfully complete the RICS online ethics module
- provide a CV/resume setting out their relevant experience* and may be asked to provide their CPD record.

RICS reserves the right to decline direct entry. In such cases, applicants will be required to undertake the most appropriate RICS assessment.

When applying through a direct entry, applicants are asked to confirm how they gained the approved qualification. If this was by way of a third-party arrangement which is not RICS-recognised, the applicant will be referred to the most appropriate RICS assessment.

***Please note – some direct entry arrangements include a condition that requires applicants to have a period of relevant experience. Where this is stated, RICS defines “relevant experience” as full-time and relevant to the RICS competencies as set out in the appropriate RICS pathway guide. If you have any questions about the relevance of your experience, please contact us.**

Country	Professional body/qualification	Conditions	Chartered alternative designation applicable
